Summary

Frontend developer and UI/UX enthusiast with hands-on experience building responsive web applications and mobile apps using React.js, JavaScript, Tailwind CSS. Delivered projects spanning GitHub analytics, academic tools, and healthcare mobile apps. Passionate about user-centric design and building intuitive interfaces in fast-paced environments.

Experience

Codebind Technologies *Jul 2025 – Aug 2025*

Web Development Intern

- Designed and developed a fully functional Boutique Website — the primary internship deliverable — applying clean UI design and responsive layout principles.
- Implemented frontend features using HTML, CSS, and JavaScript in collaboration with the development team.
- Applied UI/UX best practices and conducted testing to ensure the delivered interface met functional and visual standards.

Skills

Languages	:	Python,C
Frontend	:	HTML5, CSS3, Tailwind CSS
UI/UX & Design	:	Figma — Wireframing, Prototyping, Design Systems
Tools	:	GitHub
Core Concepts	:	DBMS, OOPS, Data Structure

Education

SRM Madurai College for Engineering and Technology *Expected 2027*

B.E in Computer Science & Engineering

- Currently in 3rd Year — CGPA: 8.62 / 10.00

Projects

GitHub Profile Analyzer *May 2026*

React.js · GitHub API · Recharts

- Built an interactive web app that fetches and analyzes GitHub user data — repositories, languages used, and contribution insights.
- Created a visual analytics dashboard using Recharts with dynamic UI components to present developer activity intuitively.
- Implemented third-party API integration, responsive design, and reusable React components.

GradeMate – Academic Grade Tracker *May 2025*

React.js · JavaScript · Tailwind CSS

- Designed a student-focused app to calculate GPA/CGPA, track subject-wise marks, and visualize academic performance.
- Focused on intuitive UI with a clean, fully responsive design built in React with Tailwind CSS.

Boutique Website *Aug 2025*

HTML · CSS · JavaScript

- Built a responsive e-commerce-style boutique website with product listings, clean navigation, and modern design.
- Delivered as the primary internship project at Codebind Technologies.

MediCare – Healthcare Mobile App *Apr 2025 · TNWise Hackathon*

Kotlin · XML · Groovy

- Built under hackathon constraints: medication tracker, intake reminders, and MediBot AI chatbot for basic medication info.
- Demonstrated rapid prototyping, end-to-end UI/UX design, and mobile app development skills.

Achievements

- **TNWise Hackathon** — Conceptualised and delivered MediCare, a full-featured healthcare app with AI chatbot UI, medication alarms, and diet scheduling, under competitive constraints.
- **GitHub Profile Analyzer** —Developed and deployed a GitHub Profile Analyzer web application using React.js and GitHub API, featuring interactive data visualization, responsive design, and repository analytics.
- **Internship – Codebind Technologies** — Delivered a production-ready Boutique Website with polished visual design and responsive interface.
